BUSINESS COMPLIANCE INSPECTION

*Guidelines for a
Successful Inspection*

INSPECTION GUIDELINES

- Place of business arranged as if you are ready to open to the public.
- Affix 6-inch unit numbers to front doors and 4-inch unit numbers to rear doors. Numbers should contrast with building's exterior color.
- Fire extinguishers to be mounted and certified by a State of Florida licensed fire equipment company.
- Fire alarm and sprinkler system to be tested and tagged by a State of Florida certified and licensed company.
- All EXIT signs to be illuminated with battery backup.
- All emergency lighting to have battery backup.
- All EXITS (means of egress) to be unobstructed and unlocked.
- All storage to be kept no closer than 18 inches to sprinkler heads or ceiling.
- All extension cords to have surge protection (UL rated power strip).
- All electrical panels to be unobstructed with 36 inch clearance around panel and indexed.
- Restaurant hood to be serviced and tagged by a licensed hood cleaning company.
- All kitchens to have a 40BC rated fire extinguisher.
- Cook lines with fryers to have a Class 'K' fire extinguisher.
- Any unprotected openings in walls require appropriate fire stop systems.

SCHEDULING AN INSPECTION

- Inspections may be scheduled via telephone or in person at the Fire Prevention Bureau Office. Please include all permit numbers.
- For requests submitted by 9:00 a.m., every effort will be made to schedule the inspection for the next business day.
- Inspections are completed Monday—Friday between 9:00 a.m. and 4:00 p.m. A representative must be on-site for the inspection.
- For other inspections, contractors may request AM or PM. The District will make every effort to accommodate the request.
- Time specific inspections can be arranged for an additional \$85 fee.
